CHOOSING THE RIGHT DEVICES & OPERATING SYSTEMS

PC's such as Surface Pro series running Windows 10 Pro for business enjoy a significantly greater market share than Mac OS X and others, with all versions of the Windows platform far outstripping competing operating systems

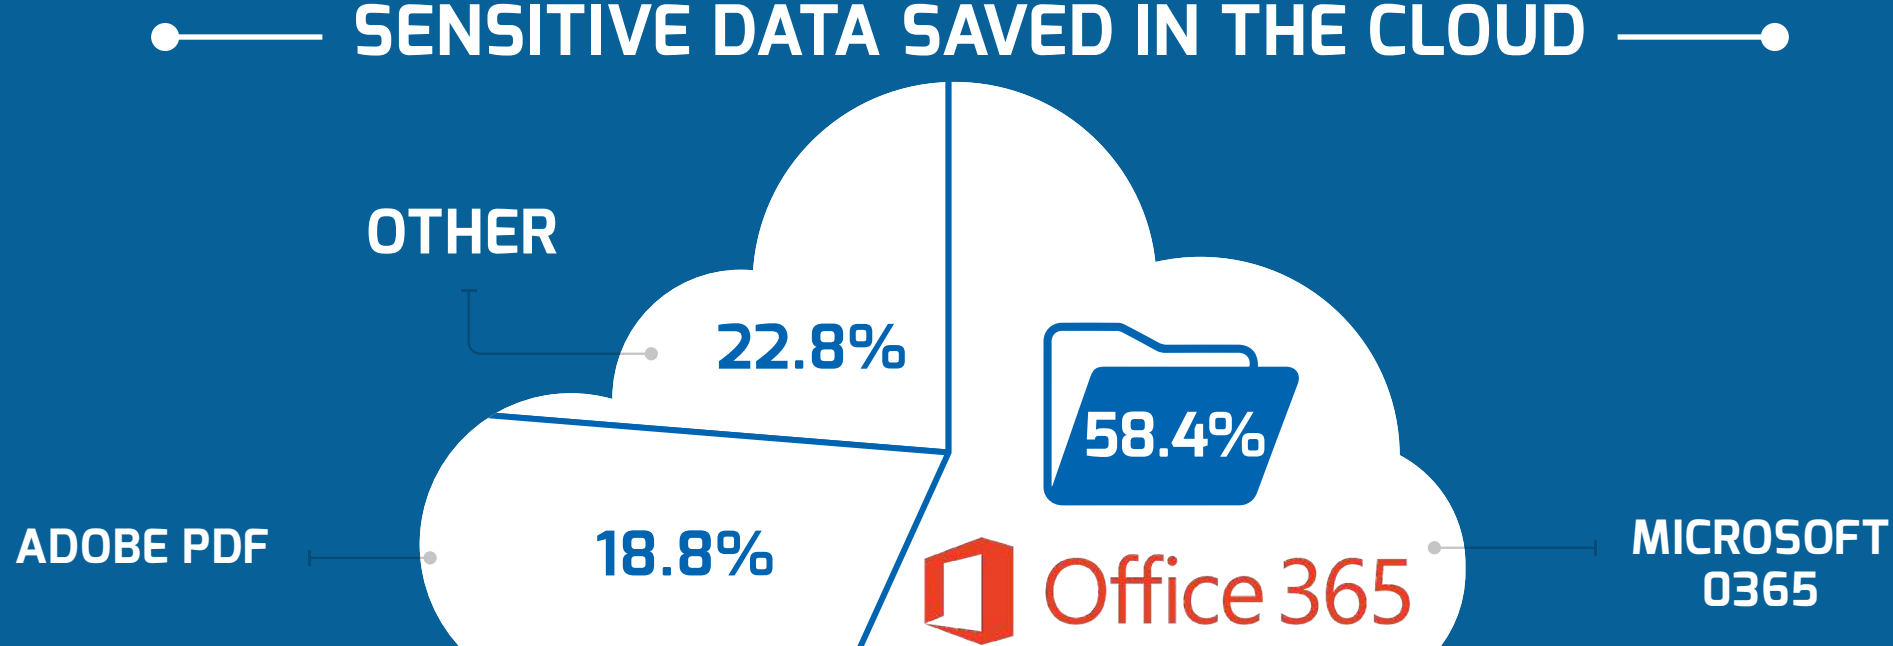

CHOOSING THE RIGHT PRODUCTIVITY SUITE

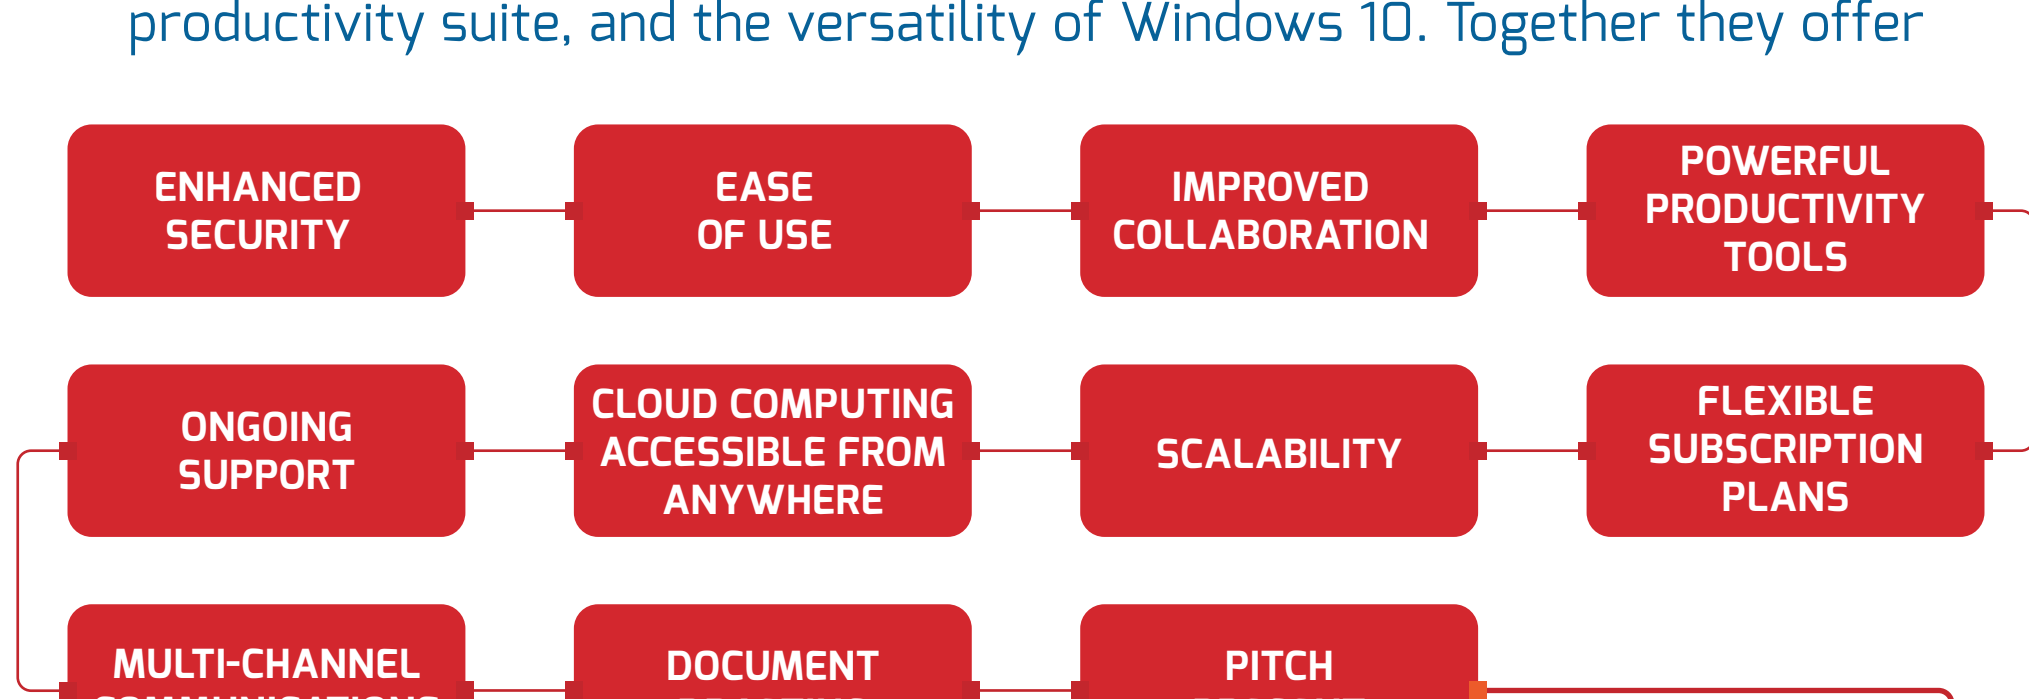

When it comes to choosing a productivity suite, Microsoft's cloud-based Office 365 has become the clear winner among companies looking for comprehensive tools to handle daily business challenges. In fact, due to the suite's sophisticated data security measures, more companies choose Microsoft Office documents to save sensitive data in the cloud than any other format.
