

Looking For Some Extra Income?

## DO THE MATH

Here's An EXACT Blueprint That You Can Use To Make \$5,680 Per Month

All With Just 10 Hours Of Work!  
That's \$568 An Hour!

Keep Reading To Discover  
How This **AirBnB PROFIT** System Can  
REVOLUTIONIZE The Way You Make Money.

Dear Friend,

Have you heard about **airbnb**?

It's a popular platform for travelers looking for places to stay—rentals for vacation, work, any type of travel—and **you can use it to make a TON of money.**

Now you might think it's simple...

That's what I thought at first—set up an extra room in your apartment or house as a rental, set the price, complete a description, take some pictures—and you're off!

✓ **Right?**

Sure—you can do that—but let me tell you this...

I'm Not Just Talking About Making A Few  
Extra Dollars A Month Through AirBnB  
I'm Talking About A REAL, STEADY, Income...

If you are just interested in a couple hundred extra dollars a month, that's fine...

**Honestly**, I still think that the information I'm about to share with you is **COMPLETELY** worth it, even if you don't have HUGE aspirations for an AirBnB empire...

Anyway, let's get to the point.

**What I discovered is this...**

You can leverage the power of AirBnB to create a type of personally managed hospitality business...

Instead of just making a few dollars here and there, you can maximize profits with little work by...

- Understanding How To Be SEEN By Renters
- Leveraging The AirBnB Success FORMULA
- Optimizing Your Rentals
- Outsourcing Work To Others
- Developing Automated Processes
- Putting A Solid Business Plan Into Action

THINK ABOUT THIS:  
YOU DON'T EVEN NEED TO  
RENT YOUR OWN HOME!

**You Can If You Want:** Rent your own place if you want—that's definitely an easy way to get started...But if you aren't sure you want strangers in your own home, there are many other ways to make money using AirBnB.

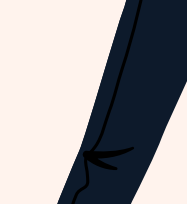

**Rent A Friend's Place:** Actually, it doesn't even have to be a friend. You can find people who are willing to let you do all the work (trust me, it's not that much work) to rent their property while they are away.

**Buy A Space For Cash Flow:** The big money is always in property management—but you don't need to be a landlord tied to tenants with a long-term lease. Buy a property and generate 10x the cash flow of a traditional investment property by renting it out nightly.

**Forget About Management:** Management...the biggest reason people are afraid of using AirBnB to make money. Listen, just because you are an entrepreneur doesn't mean you actually have to work. All you have to do is come up with the ideas and make money—what I'm about to show you will give you all of the ideas.

**Outsource All The Work:** Cleaning—that's the one thing that no one wants to do. Seriously, you don't even have to clean up after your AirBnB guests. I'll show you how to hire someone else to do all of the work—you'll just sit back and make money.

AirBnB Uses A FORMULA To Rank Rentals

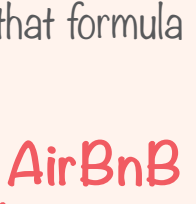

Once You BEAT That  
Formula, You Make Money

✗ **Don't get me wrong  
you can screw this up...**

I've talked to people who've read this very page that you are reading right now who've said—"yep, I can do that?" and they've gone off without any guidance, quit their jobs and started renting investment properties.

**Guess how that worked out?**

Not great.

Google

**You see—AirBnB has a preference formula that you can think of like Google page rankings.**

Just like Google, they've got a set of criteria they use to rank properties in each rental area. Prospects go on AirBnB and start searching and properties that meet that formula get seen first.

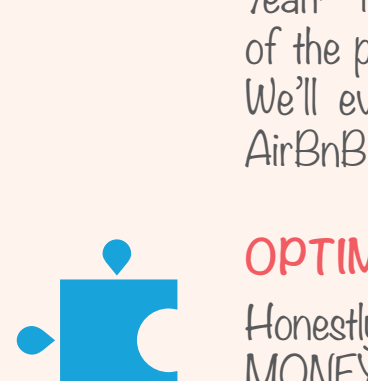

**The difference between people who understand how AirBnB ranks rentals and those who don't is the difference between profit and failure.**

What's my point?

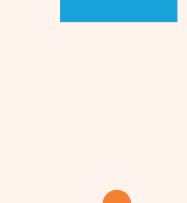

Don't quit your job until you listen to what I have to tell you about AirBnB's formula.

**LAUNCHPAD LOGIC**  
The Only AirBnB Empire Building Guide

**COMPLETE CASH FLOW GUIDE**

Launchpad Logic is the **ONLY** AirBnB business building guide. The first course designed to show you exactly how to create a complete business leveraging the power of AirBnB. It's not just about setting up a listing—Launchpad Logic is the exact blueprint I used to develop a \$5,680 per month passive income stream.

**SECURE AND SET UP RENTALS**

You can get started even if you don't have a space to rent. I'll show you how you can secure rentals and find places to rent. Yeah—if you're renting someone else's space you only see part of the profit, but profit is profit and it's virtually **NO** extra work. We'll even talk about securing investment properties just for AirBnB rentals.

**OPTIMIZE YOUR LISTINGS**

Honestly—this is the **ONE** element of AirBnB that will **MAKE** or **BREAK** your ability to make **REAL MONEY**. Now—you might already know how to outsource, manage investments, source prospects to rent properties for and all of that—that's fine, I'll show you my way of doing it, but what you don't know is exactly how AirBnB ranks your listing. Learning how to beat their system—that's the key to making money.

**OUTSOURCE ALL OF THE WORK**

Along the way, I'll show you how to outsource everything that you need to do to manage a successful AirBnB rental business. From small time to big time. You're never going to have to clean a room. That's really the point here. If you want to, sure, you can do it. But, I've never cleaned a single room and I'm bringing in thousands each month of passive profit. I don't think you should have to clean a room either.
