

HELP MILITARY PERSONNEL PHONE HOME!

RECYCLE UNWANTED CELL PHONES TO PROVIDE FREE LONG-DISTANCE PHONE SERVICE FOR ACTIVE MILITARY AND VETERANS

“ Each Recycled Phone Funds 30 Minutes of Free Long-Distance Service for Military Personnel; Helps Keep ‘The Emerald City’ Green ”

According to the U.S. EPA, only 13% of the 2 billion cell phones sold each year are recycled, with the remaining 87% going to landfills or incinerators. In partnership with MetroPCS and Cell Phones For Soldiers, Kyocera is asking you to recycle your old/unwanted cell phones between now and August 31 at one of 16 MetroPCS retail locations in the greater Seattle area. For every phone collected, Cell Phones For Soldiers will donate 30 minutes of long-distance phone service to members of the U.S. military stationed overseas or away from their families.
